Rationale
This required graduate course provides an introduction to professional development within a learning community complementary to the rest of the Geography graduate curriculum.

Course goals
This class will orient students to the department, to the academic discipline of geography, and to the expectations of the Geography graduate program. Students will learn strategies to seek professionalization opportunities on an ongoing basis.

Course objectives
By the end of the semester, students will:
- Get to know the department, the university and key policies that affect them;
- Have explored a variety of components of academic success (e.g., publishing, external funding, peer networks, tenure) and success in teaching (e.g., course design and course feedback);
- Have had some exposure to the range of professional environments within which geographers work; and
- Learn how to document their academic accomplishments in a format most suitable for their goals.

Course evaluation
Successful completion of this course yields three (3) graduate pass/fail credits (S or U). There are four components to course evaluation:
- Class attendance and attendance of all departmental colloquia;
- Written contributions to the Carmen discussion page;
- Facilitation and participation in class discussion; and
- Turning in a portfolio that is compliant with the format required for Spring Review.

The University strives to make all learning experiences as accessible as possible. If you anticipate or experience academic barriers based on your disability (including mental health, chronic or temporary medical conditions), please let me know immediately so that we can privately discuss options. You are also welcome to register with Student Life Disability Services to establish reasonable accommodations. After registration, make arrangements with me as soon as possible to discuss your accommodations so that they may be implemented in a timely fashion. **SLDS contact information:** slds@osu.edu; 614-292-3307; slds.osu.edu; 098 Baker Hall, 113 W. 12th Avenue.
Readings
Readings will come primarily from the following books:

These are available for loan (return at the end of the semester!). Additional readings for weeks that faculty visit are to be found on Carmen (see dates on schedule).

Carmen discussion board contributions
Students will be assigned to two groups. Each week by Wednesday at 5 pm, each member of one group will post a 200-300 word response to the readings on the corresponding Carmen Discussion topic. In these posts students may: write about an aspect of the day’s reading that you don’t understand, or something that jars you; formulate an insightful question or two about the reading and then attempt to answer your own questions; or respond to another student's post, building upon it, disagreeing with it, or re-thinking it.

Leading discussion
Students will be broken up into groups on the first day of class. Students will take a turn leading class discussion for the first hour of class (9-10 a.m.). Please plan some in-class activity and plan to facilitate discussion for one topic (students may tag team within their discussion groups to do this).

Four in-class activities
Students will have four homework assignments in preparation for in-class discussion.

1. Bring in an exemplary CV from someone outside of OSU. Each student should locate a CV from an academic they admire, and read/analyze carefully before class. This should be someone you do not know yet! September 23.

2. Interview a faculty member. Before class, each student should meet with one faculty member (not advisor or committee members). I will pass around an interview protocol beforehand including such topics as sustaining a research program, finding inspiration for research and teaching, work-life balance, etc. November 4.

3. Draft teaching philosophy. In class we will discuss strategies for developing a teaching philosophy. Students will prepare a draft philosophy for in-class discussion. November 11.

4. Presentations. Each student will make a 5-minute presentation of their research interests to the class that will be videotaped. Students will get to watch the video of their presentation. December 2.
Colloquium
Colloquium attendance is required. For the up-to-date schedule, see:
http://geography.osu.edu/events

Recommended optional readings
These books cover a wide variety of topics: general strategies for success, negotiating, developing and communicating ideas, teaching strategies, academic writing and publishing, time management, work-life balance, understanding the academy, etc.

College Teaching

Writing, Writing, Writing!

Work-Life Balance

Ideas and Inspiration

Understanding the Academy and Your Place In It
