Thinking Creatively about Your Career Path: Getting a Dream Job outside Academia

Are you interested in making an impact? The skills developed at Ohio State are more versatile than you think. Think creatively. Look for a dream job – plan for how to land it. First, this discussion will **review different career paths** in both the public and private sectors, including the federal government and consulting. Second, an overview of **example projects or problems** these employers are grappling with will be provided. Finally, we will answer the following questions: **What are employers looking for? How do you tailor your application to stand out? How can you resourcefully address your weaknesses? Does networking really help? How do you navigate the application process?**
