Assistant Professor (Teaching/Instructional) in Geographic Information Science

Temple University, Philadelphia PA. Temple University's Department of Geography and Urban Studies (http://www.cla.temple.edu/gus/) invites applications for a **full-time, non-tenure track Assistant Professor** (Teaching/Instructional) position specializing in Geographic Information Science for academic year 2015-2016. The initial appointment will be for one year, including summer, renewable annually, pending continued college-level funding and satisfactory performance. The position is intended to support the Department's new Master's in Geographic Information Systems (GIS) program. The position is teaching intensive.

We seek a faculty member committed to graduate level GIS education who will be able to teach a combination of introductory, advanced, and applied courses focusing on GIS and related technologies and methods. The successful candidate will be able to teach some combination of the following courses: Spatial Database Design, GIS Application Development, Web and Mobile GIS, and Spatial Analysis. Some combination of skills in GIS database management, GIS programming, or spatial statistics is required. A Ph.D. in Geography or a related field is preferred by the start of employment; However, we will also consider applicants with a Masters degree and at least three years of experience in the GIS industry.

Please send a letter that addresses teaching and research interests, a copy of your most recent curriculum vitae, evidence of teaching excellence, and contact information for three references to Tycina Cousin, Administrative Coordinator, Department of Geography and Urban Studies. Electronic applications are required and should be sent to tcousin@temple.edu. Review of applications will begin February 23, 2015 and will continue until the position is filled.

Temple University is an Affirmative Action/Equal Opportunity Employer and the University especially encourages applications from women and minorities.
