Overview
The GIScience minor aims to provide fundamental training in GIScience that is needed for students from various disciplines to advance their career. The curriculum of the GIScience minor is based on that of the GIScience major, which includes a diverse range of courses that can be selected by students to count toward the proposed minor degree. These classes will provide students with extensive experience in mapping, geospatial analysis, geospatial modeling, environmental modeling, and statistical methods. Most the courses include a lab companion to give students hands-on training.

Minor Requirements: Effective for students declaring the minor before AU15.
The minor in GIScience requires a minimum of 15 semester credit hours of course work.

Required: 9 hours
Students must take GEOG 5200 (3), 5210 (3), and one of the following three courses: 5226 (3), 5222 (3), and 5223 (3).

Electives: 6 hours
Students must take two elective courses. All courses below may count toward the minor, unless taken as a required course. All these courses are 3 credit hours. GEOG 2200, 5100, 5201, 5222, 5223, 5225, 5226, 5229, 5275, 5300, 5402, 6220
